**Swimming Pool Fence Declaration**

By signing this document, I understand that the NY State Residential Code, Appendix G, section G105.2.2, and the Town of Shelter Island Swimming Pool Code section 113-5D(1), both state that a permanent, Code compliant barrier shall be complete and functional within 90 days from the excavation of the pool, and further, that I will be issued a summons for each violation of each Code section if this time limit is exceeded. The penalty for each violation is a minimum fine of \$500 and no more than \$2000, and/or 5 days in jail. Each day without such barrier is to be considered a separate violation. This serves as the only warning that will be issued.

I also hereby state that I understand that upon initial excavation, a temporary pool barrier shall be immediately installed and maintained throughout the course of construction.

The minimum required temporary fence shall be constructed with wood snow fence, metal or wood posts @ no less than 6' on center, with no fewer than 3 wire tie on each post.

The temporary barrier is to remain in place unless actual work is being performed, and the barrier shall be in place whenever the site is unattended.

This declaration must be signed by the property owner, the pool contractor, and the fence installer of record. Names signed must also be printed legibly.
