The Committee members reviewed the meeting schedule for 2015 and approved the following dates (Mondays at 3 pm in the Town Board room): 1/12, 2/9, 3/9, 4/13, 5/11, 6/8, 7/13, 8/10, 9/14, 10/19, 11/9, 12/14

The committee reviewed the letter sent to the DEC in November regarding the errors made on the DEC's proposed language renewing the general MS4 permit in 2015. John made several suggestions to make the letter more definitive. It was noted that the original 5 year permit will be expiring this Spring.

The committee then reviewed the correspondence between Southold and the NYSDEC on their characterization of the town's waters as covered by the MS4 permits.

DEC statistics re enforcement of the MS4 are carried on their website and the committee reviewed this information. The information was discussed.

Other changes are proposed that would affect construction stormwater runoff mitigation measures. The building department reviewed the existing process, including training. However, there has only been one permit subject to these special requirements to date.

Jay reviewed the proposed stormwater mitigation efforts in 2015, such as Silver Beach Lagoon. It would involve work on Brander Parkway or Wheeler Road re the culvert draining to Silver Beach Lagoon. This project is on the town's adopted stormwater plan. There is another project on West Neck Road that was discussed.

The meeting adjourned at 3:55pm.
